

A simple cheat sheet to help you identify your

Simplicity Axle:

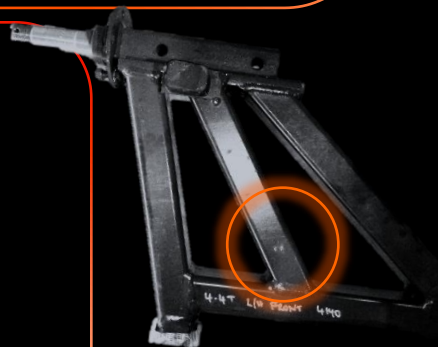

Leaf Spring Ratings

Spring Rating Spring Length Number of Leaf

4.4T	1000mm	9 Leaf
4T	1000mm	8 Leaf
3.5T	1000mm	7 Leaf
3T	860mm	8 Leaf
2.25-2.5T	860mm	7 Leaf

4140 or Standard Stub

To identify if your frame is on 4140 stub or our standard 1045 steel stub, there will be a spot of weld on the centre bar of the frame (as shown in picture)

Identify Your Stub Turn

Hub Type Inner Bearing Outer Bearing

A75L	16150 / 16284	67048 / 67010
A75	2788 / 2720	67048 / 67010
A75H	26884 / 26823	68149 / 67010

Serial Number

As pictured, the serial number will be stamped on the end beam plate. When calling to ID your axle please let us know the serial number so we can give you the right information.
